We offer varied work as a musician in Wermland Opera's orchestra, which, with its 34 full-time employed members performs both orchestral concerts and opera/musical productions. Since 2011 we have performed our concert series at the Karlstad CCC concert hall. Over the years we have had the pleasure of presenting several of our own musicians as soloists. Our chief conductor is Johannes Gustavsson and he conducts most of the concerts in our main concert series 'Stora konsertserien 2018/2019' which has a varied program and guest appearances by leading conductors and soloists. We also have two chamber music series with our own musicians. The orchestra displays a broad scope with easy transitions between various genres.
